Professional Experience

SEO Content Writer

Vijak Software Solutions

Feb 2024 – Jul 2026

Valliyor, Tirunelveli

- Conducted keyword research and identified content opportunities based on search intent, then wrote SEO-optimized blog content on Artificial Intelligence and technology trends to grow organic traffic.
- Implemented on-page SEO best practices, including title tags, meta descriptions, headings, internal linking, keyword placement, and content structure, and published content in WordPress CMS.
- Monitored organic search performance (traffic, impressions, clicks, keyword rankings) using Google Analytics, Google Search Console, and social analytics platforms, and made data-driven recommendations to improve existing content.
- Wrote technical content that explained software, technologies, and complex concepts clearly for different audiences, aligned with brand voice and business objectives.
- Collaborated with marketing teams and stakeholders to gather information, and proofread and edited content for accuracy, clarity, consistency, grammar, and tone.
- Repurposed content for social media and email marketing, and managed and scheduled posts across platforms to increase visibility and engagement.
- Maintained content calendars and campaign documentation to manage multiple content projects and deliver on time; handled customer queries and feedback by email and social media.

Project Trainee

Thika Tech Solution

Mar 2023 – Feb 2024

Valliyor, Tirunelveli
